Puddles Launch in Tennessee  
River and Pulls Geo. Finch  
Out of Water as He is Sink-  
ing For Third Time

### IS GIVEN VIGOROUS HUBBING.

By desperate paddling and remarkable skill in the handling of the boat, Albert Winfrey saved George Finch, a 17-year-old boy, of the south side, from drowning yesterday afternoon at 3 o'clock in Tennessee river back of the old Rigsberger mills on South Third street near George street. Winfrey was in Jack Nelson's gasoline boat, "Husler," preparing to go out for a ride. Several boys were swimming, and shouts from one of the party attracted Winfrey's attention.

He saw the head of one youth bobbing up and down, the boy from every indication strangling. Winfrey put off from the shore immediately, but did not start up the engine for fear of running down the drowning youth. He paddled desperately and reached Finch's side just as he was going down for the third time.

The boy's companions were afraid to go to his assistance, and stood on the bank watching Winfrey in his work of rescue. Turning the boat with remarkable skill he seized the boy by the hair, reached down and secured a hold on the arms, and in another instant had jerked him into the boat.

The boy was half drowned, water having filled his lungs. He was given a vigorous massage until fully recovered. He stated that he was seized with cramps.

## New York Dispatch Purports to Give Reason For Change of Harahan From Illinois Central to Erie

### INSIDE HISTORY OF AFFAIR

New York, June 19.—It was announced today that W. J. Harahan, fourth vice president of the Illinois Central Railroad company, had resigned to become assistant to F. D. Underwood, president of the Erie railroad.

Mr. Harahan is a son of J. T. Harahan, president of the Illinois Central, and it was reported from Chicago that E. H. Harriman had objected to his rapid elevation to vice president as favoring too strongly of nepotism. It was stated that Mr. Harahan had expressed the opinion that there was too much paternalism in the official family of the railroad property.

When J. T. Harahan succeeded Stayceant Fish as the head of the Illinois Central system one of his first official acts was to make his son fourth vice president of the road. The criticism was then made that men older in the service, of undeniable qualifications, had been superseded.

## IMMIGRATION IS TO BE ENCOURAGED

Another Convention Will Be  
Held in September

Good Roads and Interurban Traction  
Lines Will Be Discussed at  
Same Time.

### PROSPECTS ARE OF THE BEST

Encouraged by success in the immigration movement up to this time, President J. H. Hughes, of the western Kentucky and southern Illinois immigration association has decided to call second convention to meet in Paducah in September. Last year rains interfered with the attendance, but in spite of that fact, every section was represented, and the interest was keen.

This year a good roads convention and a meeting to discuss interurban traction lines will be combined with the immigration convention, and it is expected that these three questions will bring all the farmers together here. The meetings will be held in the Chautauqua auditorium and the best transportation facilities will be provided for the occasion.

A substantial start of the immigration stream has been made in McCracken county. Austrian farmers have purchased land and have returned to the Fatherland to induce others to come. Joseph Tummel, the latest arrival with his family, is now looking over the situation and acquainting himself with American ways. He has money to purchase land and is an architect and builder by profession. He represents the highest type of European immigrant, and apparently likes what he has observed at Paducah.

Absolutely no other remedy superior to this for all the common hot climate liver diseases. For over Seventy (70) years, its sale has steadily increased, until now it is the standard, vegetable, liver medicine. Its merits may best be proved by its flock of spurious imitations. be in the interest of the states?

Would the power "to regulate and control grazing upon the unappropriated and unreserved lands of the United States," retard the gradual absorption of the public lands into ownership?

Has the government the power to interfere with public or private enterprise in the construction of irrigation works and to deny such projects a right of way over public lands?

This program is evidence in itself that the policy of the Roosevelt administration in regard to the public lands is likely to come in for considerable criticism at the conference. Both the gentlemen, who want the

lands for grazing purposes, and the

land men, who want the country divided up into farms for settlers, are opposed to the policy of the administration in withdrawing large areas of public lands for forest reserves. The friends of the administration, however, are prepared to offer strong opposition to any movement to turn the conference into an anti-Roosevelt demonstration. Secretary Garfield and other officials of the interior department are on hand to explain the policies of the administration.

## Daily Thought.

"Not what we seem to be, but what we really are determines our success or failure. For, ultimately, success is a matter of character."

## OUR POSITION IN THE EAST.

While we talk of the petty incidents at San Francisco as probable causes belli with Japan, and the Japanese government protests that the hysterical cries of revenge of the native press will have no effect on the relations of the two countries, it is more and more apparent that the press is, in a distorted fashion, to be sure, reflecting the sentiment and policy of the mikado.

There is danger of war with Japan, but not about the riots in San Francisco. War will come, if it does come, over the domination of the Pacific. We own the Philippines and Hawaii, and our merchants have invaded Asia. Japan claims that territory as her own, even as we claimed the western hemisphere and established our claim by compelling unwilling recognition of the Monroe doctrine.

Japan is paying little attention to us. She has long entertained close relations with England. France has recently entered into treaty agreements with Japan concerning eastern affairs. Japan is building up a dominating influence by winning the recognition of European countries. Truth to say, our recent policy has not established confidence in our desire or purpose to strengthen our influence in the east. Europe does not understand the American sense of honor, which intimated us to interfere in China, and to do justice to the Japs in San Francisco. The Spanish war Europe ascribes to capidity, and, perhaps, the San Francisco episode to weakness. Yet we would not do otherwise were we to do it over.

Japan is taking every advantage of every slip we make in our eastern policy. In Washington we know nothing of her international dealings. Japan does not consult us concerning the disposition of Asiatic politics, although we are the only Pacific bordering country of any prominence. All our information comes through London, and here is the latest advice from that center of eastern intrigue.

"Count Aoki, in the few remarks, while have been credited to him here lately discuss the relations of Japan not particularly to the United States, but to all nations. It is known that the embassy, reflecting the view of the Japanese foreign office, believes that Japan is the unrivaled now of affairs in the east."

"That position now really excludes the United States from any co-partnership, and it is doubtful that there is to be another Japanese-American treaty if there should be an impasse on the question of immigration. Japan has solidified herself by a treaty with England, which is offensive and defensive, and no one yet knows what is in the Franco-Japanese treaty which was brought to Secretary Root today."

"Nevertheless it is certain Japan creates the impression that she is covetous in the Asiatic waters and that other nations must look to her as the primary power for the prevention of the integrity of China, and for other favors so far as the posses-

sions or concessions to other nations in the far east is concerned.

"The position of the United States now is one of apparent repression or resentment against Japan. The matters in dispute between Japan and the United States, so far as the public is informed by Secretary Root, are so simple that if there were not some unknown quantity in the equation (which caused France to act) both Root and Aoki could long since have made statements that would suddenly stop all talk about future trouble with Japan."

Japan is colonizing Korea and the mainland as far as possible with her peasants. She is sending them in swarms to Guam, the Philippines and Hawaii, in order that her influence may be felt there, her mercantile houses established and the foundation laid for her trade, when the opportunity, whatever it may be, comes.

Japan may believe she has America at a disadvantage, but Chinese reports indicate that just now we are considerable of a factor in that country, where American educated Chinese statesmen are introducing American methods and crowding Japan and Russia alike from the frontier. Here is one opportunity, for we constitute the most aggressive, the most original force in the world. Japanese progress is initiative in all fundamental essentials. We should have little trouble with a consistent policy in dominating eastern affairs, as far as our interests warrant, and we need not engage in entangling alliances to be felt.

The first thing necessary is to improve Europe with the fact that we are in the orient and there to stay, and that we are for the open door, the integrity of China, literally, and for our share of business, which is necessarily the biggest share. A good beginning would be the fortification of Manila, Guam, and the Hawaiian ports, and the building of a Pacific fleet.

Nations, no more than individuals, can afford to make a bluff without the apparent ability to back it up, and Japan will fight for the dominion of the eastern seas. We shall never leave the orient. The trade is naturally ours. European nations are intriguing with Japan to maintain their interests there and to keep the United States out. Europe should understand, by the millions we are spending on the Panama canal and the reform of our consular service, that we mean business; but our vacillating foreign policy, if our usual extemporaneous procedure could be dignified by the name of policy, misleads them. It is time for a little of our famous "shirt sleeve" diplomacy.

When we get a big navy in the Pacific and big forts at our coaling stations Japan won't attack us; and our attitude will be warning sufficient to prevent European nations entering into further embarrassing relations with Japan, before consulting our pleasure.

The ordinance committee of the general council believes in a policy of non-interference with the sale of the destroying toy pistols.

We said the true test of Alderman Stewart's capacity would come in the effort to get his ordinances introduced and enacted.

Weston, who presented to Secretary of War Taft a tomahawk, probably heard of that Ohio speech, in which he said he had no ax to grind.

A North Carolina bank teller pleaded the excessive demands of a large family as his excuse for defaulting. We trust President Roosevelt will not consider this a personal affront.

At least, there was nothing shoddy about the cotton tips given out by E. H. Holmes, of the department of agriculture.

Governor Beckham will experience no difficulty in putting the "lid" on Louisville. His difficulty lies in getting the Hildebrand crowd under the lid.

That's an unfortunate habit the Calvo Bulletin has got into of crediting exclusive items from The Evening Sun to another Paducah newspaper.

Former Mayor Schmitz, of San Francisco, is in receipt of legal advice that he cannot be succeeded as executive of the city; but the fact remains that he has been.

Get \$1,350,000 For Church.

London, June 10.—Another remarkable scene in the century of the Primitive Methodists, who made a pilgrimage in Nowcop some days ago, was witnessed today in the session of the conference at Leicester. It was proposed to inaugurate a thanksgiving fund and W. P. Hartley arose and offered \$15,000. This was received with enthusiastic acclamations, after which delegate after delegate arose and promised generous contributions. At the close of the meeting it was announced that these offerings, with the pledges already made in behalf of churches, reached a total of \$1,350,000.

TALL HUMORIST  
LOOKS THE PART

"Take the Sunny Side" Subject This Afternoon

Brave James Speed Bars No Questions From Youngsters and Delinquents.

## THE PROGRAM FOR TONIGHT.

Raising the platform has been one of the improvements contemplated for next year in the Chautauqua auditorium, but when the building committee saw Mr. Lon Beauchamp this morning, they were glad they had decided to wait until next year to make the change, as had it been made now, the roof would have had to be raised also. Mr. Beauchamp is not more than 7 feet and 3 inches tall and his towering height carries a head and face that looks like drawling Yankee humor is there in a strong vein.

This vein of humor Mr. Beauchamp is developing before an audience at the Chautauqua this afternoon, and from the first essay, it likely contains a high per cent of gold. "Take the Sunny Side," is his subject and the cool shade of the Chautauqua grounds is being flooded with the sunshine of cheerfulness and wit. One more number will be given by Mr. Beauchamp Thursday evening.

Brave Mr. Speed.  
 Facing the cannon's mouth would be less during than facing an audience of children, who have the liberty to ask any questions they desire. Mr. James Speed has made good with the children in his nature talks in the most emphatic manner, and the questions that only childhood can propound, are being hurled daily at him for answers. He has risen to the level of the situation, however, and this morning his talk dwelt generally on birds, but particularly on the homely "peckerwood." One of the boys in the audience scared the little girls by a lizard he had tied by a hind leg, to the lapel of his coat, and the other boys had all kinds of wild life about them. "It is one of my objects," said Mr. Speed, to overcome the fear of women and girls for the inhabitants of the field."

"How about rats, have you tried them on that animal yet?"

"Not much, and I don't intend to, because I have as great a dislike for the rat as they have. It bites too hard."

Already the two "Walks Meld," the boys with Mr. Speed have found nests and haunts of animals that have delighted them. The grown-ups will have the opportunity tonight of hearing Mr. Speed in one of his best illustrated lectures, "The Haunt of the Great Blue Heron."

The Program.  
 No number of the Boys' and Girls' club is scheduled for Thursday morning. But Miss Housenway put them through the paces this morning. At 4 o'clock this afternoon, the Chautauqua Concert company will entertain the audience following Mr. Beauchamp's lecture, and again this evening at 7:30 o'clock, just after Mr. Speed's lecture.

Another fine audience was in attendance last night at the Chautauqua. Many had taken 6 o'clock lunch at the Woman's club tent, or rather near it, for the tent could not hold the crowd, and the cars

## The Dawn of Reason.

In the days of unreason, when thinking by the many was at a discount, and man accepted and followed the beaten trails of custom, superstition and prejudice, disease was thought to be the results of the activities of evil spirits. In order to cure, the spirit must be driven out, and spells and incantations were resorted to. Later man considered disease a visitation of the just, wise, merciful Almighty Father—Who in His infinite wisdom, they thought, saw fit to inflict pain, misery and deformity on His children.

As man began to make use of his thinking powers he began to realize that disease is not a thing but a condition; a state, a discord in nature, and that "within himself he must seek success;" that the laws of nature or the laws of God, and that both are part of the same.

brought out people until 9:30 o'clock. Mr. Gibson Carl made his last appearance in character impersonations and the audience was pleased with his work. The concert company gave a few numbers, preceding Mr. Carl. Tomorrow the Weyman male quartet will appear for the first time.

Dr. Carl Sears was on duty this afternoon at the hospital tent at the Chautauqua and Dr. H. P. Sights will be on duty tonight.

## W. O. W.

WILL PLAY BASEBALL ON THE FOURTH OF JULY.

Plans for Big Celebration at Wallace Park Include Amusements for Everybody.

Olive and Jersey camps of the Woodmen of the World will each get up a team for a baseball game in the celebration at Wallace park July Fourth. The best material in each camp will be selected and a great game will be played. Slugging that will keep the crowd uproariously happy, probably will be seen in this game.

Advertising is being distributed over west Kentucky and southern Illinois with good results, and a crowd that will tax the traction company and Wallace park, to accommodate, is assured, if the weather will just behave. Special excursions will be run on the railroads and rivers.

Few tastes cannot be satisfied with the variety of events scheduled for the day. Oratorical stunts by the best local speakers, musical concessions, funny athletic sports and contests, with the theater, dancing and other attractions, will draw everybody in the city, and the lodges in the surrounding towns will send hurrah delegations.

His Reported Engagement To Mrs. Potter Palmer of Chicago.  
 London, June 10.—The Earl of Munster, when questioned today regarding the report that he is engaged to Mrs. Potter Palmer, replied:

"The report is absolutely untrue."

At the afternoon papers here printed dispatches from Chicago reporting the engagement, with photographs and biographies of the persons.

## JAP POLICY

MAY BE CHANGED UNDER THIS DECISION.

Judge of Federal Court Does Not Read Any Exception in the Law.

Washington, D. C., June 10.—Because Judge Swaine, of the Southern district of Florida, who was tried in impeachment proceedings two years ago, has issued naturalization papers to a Japanese subject and the additional fact that Secretary Strauss of the department of commerce and labor does not concede the correctness of the interpretation of the law under which citizenship has heretofore been denied the Japanese, there is an impression here that the administration is about to reverse its Japanese policy.

It is said that the views held by Secretary Strauss will exert an influence on the administration and that it may result in the free granting of rights of citizenship to Japanese, at least until the supreme court has a chance to pass upon the status interpretation of the law.

In his action granting naturalization to a Japanese, Judge Swaine held that there was nothing in the law to exclude him. This is the first case on record of this kind.

The adoption by the administration of a new policy on this subject will have an important and favorable effect on the relations between United States and Japan. One of the causes of the irritation has been the refusal of our courts to permit Japa-

no subjects to become naturalized. This has wounded the sensitive pride of the Japanese.

## Would-Be Suicide Rescued.

Hickman, Ky., June 10.—G. W. Griffith, in a fit of despondency, tried to commit suicide by jumping into the Mississippi river. He is said to be losing his mind from worrying over financial affairs. Earl Hammond, the night policeman, was going down the railroad and saw Mr. Griffith going to the river. He knew

they had been guarding him, and so he followed. Griffith climbed to the fork of a tree and jumped into the river. Hammond rushed up, plunged in after him and brought him back to shore. Mr. Griffith is about 65 years old and seems to think life isn't worth living. He says now he will starve himself to death.

Messrs. Lester Yates and Arthur  
Williams, employed at Henry Kam-  
let's grocery, Third and Adams  
streets, sat on their bed over the  
store last night while a burglar at-  
tempted to pick the lock to their

park, and no sooner had they gotten  
settled in bed than a noise began at  
their door. After working several  
minutes, the burglar failed to open  
the door and went to another part  
of the house. An alarm was raised

## PEOPLE AND SOCIAL EVENTS

### Birthday Party.

The Misses Lougenia and Arnlta  
Billings entertained from 4 until 6  
o'clock in honor of Miss Lougenia's  
eight birthday, at the home of their  
parents, Mr. and Mrs. Ben J. Bil-  
lugs 1106 Monroe street. About 40  
young people were present during  
the afternoon and an enjoyable time  
was spent with games and other di-  
versions. Cut flowers and potted  
plants were effectively used in the  
decorations. Delicious refreshments  
consisting of punch, cake and ices  
were served the guests during the af-  
ternoon. The little hostess was the  
recipient of many pretty presents  
from her friends. Misses Vera Davis  
and Loretta Billings assisted in re-

### Tent a Success.

Every day proves more successful  
at the Woman's club tent at the  
Chautauqua. Yesterday Mrs. Jake

\$100 were cleared from the meals  
and refreshments served. The tent  
was beautifully decorated with flags  
and sweet peas, palms, ferns and  
other cut flowers, and potted plants  
were effectively used in the decora-  
tions. Many visitors and citizens  
commented upon the beauty of the  
scene, and its close resemblance to a  
palm garden. All the tables under  
the tent were in constant use, and be-  
sides these three long tables were ar-  
ranged out of doors. Electric lights  
were arranged on these and with the  
beauty, the passerby could not re-  
frain from giving assistance in pat-  
ronizing the women. The women  
worked hard and credit goes to them  
for the success of the day.

### UPHOLDS NEW LAW.

Important Decision Rendered by the  
Court of Appeals.

Frankfort, Ky., June 19.—The  
court of appeals, by Chief Justice  
O'Neal, affirmed the Kenton circuit  
court in the city of Covington vs. the  
Covington & Cincinnati Bridge com-  
pany, same vs. Citizens' Telephone  
company, same vs. Union Light, Heat  
and Power company. The action in-  
volves construction of revenue law  
of 1906 in connection with 1893  
and 1902 laws. The law of 1906 di-  
rects that all franchisees except those  
in cities of the first-class are to be  
assessed by the board of valuation  
and assessment, composed of the  
state auditor, treasurer and secre-  
tary of state. This court holds "not  
only does the act of 1906 purport to  
cover all the subjects embraced by  
the previous acts relating to revenue  
and taxation, but to make the legis-  
lative purpose clearer, if possible, it  
expressly repeals all previous con-  
flicting acts, save two exceptions."

These are acts of 1904, which are set  
out as not repealed in the 1906 law.  
The question in the opinion is cov-  
ered by section 181 of the constitution  
relating to first-class cities. The law  
of 1906 is upheld.

### SLAYS HIS GUARDIAN.

Without Word of Warning—Dispute  
Over Land Ends in Death.

Warren, Ohio, June 19.—George  
W. Berrell, cashier of the Kinsman  
National bank and a prominent citi-  
zen, was shot and killed today by  
Alfred Kinsman. Berrell was in the  
Berrell Hardware company's store  
when Kinsman entered with a rifle  
over his shoulder. The banker spoke  
to him and without a word Kinsman  
shot him through the heart. The  
murderer was arrested. For some  
time Berrell has been Kinsman's  
guardian in some land matters and it  
is supposed they had some trouble  
over this.

## AMERICAN COUP; HONEST TO CHINA

Pays Back Difference Between Debt and Extortion

Checkmates Japan By Acting Honorably Toward the Celestial Empire.

A PRECEDENT FOR NATIONS

Washington, D. C., June 19.—President Roosevelt has just made the most stupendous gift to China that the United States or any other government has ever made to a foreign nation. Through Secretary Root he notified Sir Chenchung Liang (Cheng, the Chinese minister, that, with the approval of congress, the United States voluntarily would relinquish the difference between the total of expenses and claims incurred in the suppression of the boxer revolt of 1900 and the amount which China agreed to pay to this country in satisfaction thereof. The difference is fixed officially at the enormous figure of \$27,000,000.

Beyond the mere generosity of the gift there are international aspects of the president's action which will be promptly considered by foreign governments. In the first place, the relinquishment of the difference between the amount China agreed to pay and that justly due establishes a precedent for like action on the part of Russia, Germany, France, Japan, and Great Britain, each of which demanded indemnities far in excess of the expenses actually incurred and the damages suffered by their subjects.

Checkmates Japan's Schemes. In the second place Japan will look upon it as a tremendous bid by the United States for the sympathy and friendship of China, something she has been endeavoring to secure through upholding the principle of social equality between the yellow and white races in the San Francisco disturbances.

This is the second time the United States has sought to ease the tremendous financial burden which the boxer revolt placed upon China's shoulders. Following the invasion of China, the capture of Peking, and the suppression of the boxer revolt, representatives of the powers at Peking adopted a joint note to the Chinese government in which one of the bases of negotiations was stated to be "The equitable indemnification of the various powers for losses and expenses incurred by them in China and in sending expeditionary forces to relieve the legations and foreign residents at Peking and restore order, and also the securing of indemnities to societies, companies, and individuals for their private losses through anti-foreign riots.

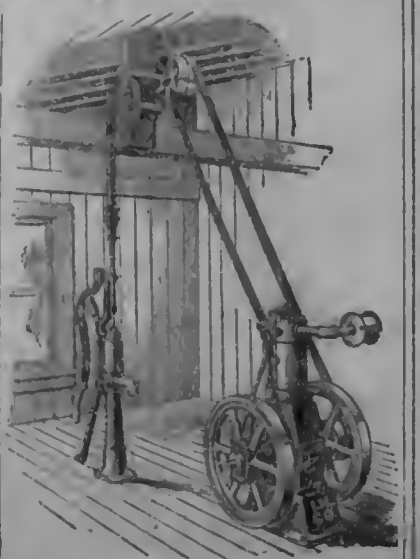

American Comets Moderation. In the negotiations which followed the American government advocated that the sum total of these indemnities should not exceed a reasonable amount, well within the power of China to pay. After a careful inquiry, John Hay, then secretary of state, reached the conclusion that with her resources and liabilities China could not pay more than \$200,000,000 and that an exaction of any larger amount would not only entail permanent financial embarrassment to the country, but might possibly result in international financial control or even in loss of territory.

Representations to this effect were made to the powers and it was further suggested that the payment should extend over a long period of years at a low rate of interest.

Protracted discussion failed to bring about an agreement and finally it became necessary to accept the proposition of other powers to demand of China in total of their losses and disbursements the enormous sum of \$235,000,000.

How Money Was Divided. Among the payments China agreed to make were:

Russia	\$87,500,000
Germany	60,000,000
France	56,000,000
United States	23,440,779
Great Britain	21,000,000

## CONFIRMED PROOF.

Residents of Paducah Cannot Doubt What Has Been Twice Proved.

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Paducah, who so testified years ago, now say their cures were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Paducah sufferers.

J. A. Housen, 809 Tennessee avenue, Paducah, Ky., says: "When I gave a statement for publication in the year 1900 telling of the great benefit I had received through the use of Doan's Kidney Pills which I had procured at DuBois Son & Co.'s drug store, it was absolutely true as it had been a sufferer from backache and kidney trouble all my life, and they greatly relieved me. Now after a lapse of almost seven years I am glad to confirm that statement and to again recommend Doan's Kidney Pills to all kidney sufferers as a quick and reliable remedy."

Of sale by all druggists. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Japan	22,500,000
Italy	14,000,000
Austria, Spain and Holland	39,559,221
Belgium	6,000,000

Total ..... \$333,000,000. The powers agreed to permit the payment to be spread over a period of 40 years, the debt to bear interest at 4 per cent.

This meant that the aggregate amount of principal and interest China would have to pay would be \$728,720,707.300. Of this sum the United States would receive \$53,354,000.

Show Favor to Sir Chenchung. In the opinion of the president and Secretary Root such an enormous indemnity was unjust and would mean nothing more or less than blood money. Their willingness to adopt this view was augmented by the regard they had come to entertain for Sir Chenchung Liang Cheng. This diplomat, probably the ablest of China's new school and a thorough patriot, had aroused the sincere respect of the administration by his efforts to remove all obstacles in the way of friendly relations between his government and that of the United States, while at the same time insisting tenaciously upon the observance of China's rights.

Just before his departure for Oyster Bay the president instructed Secretary Root to speed the departure of the minister to Peking by handing him a formal note relinquishing the principal and interest on the indemnity beyond the total of expenses and the claims of American citizens. Up to this time China has paid in annual installments to the United States \$6,010,932. The secretary has estimated that the total sum originally due this government was \$11,655,493. China will have to pay the United States \$15,000,000 more.

Great Diplomatic Stroke. The United States went to war with Spain to liberate Cuba, and then, after complete victory, took the unprecedented step of paying the conquered nation \$20,000,000 for the Philippine Islands. It has now put a third action to its international credit, and has given a lesson of unselfishness and consideration for a weaker power which diplomats here say will have a greater effect upon future American relations than all the conferences at The Hague.

Remarkable Rescue. That the truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds 50c, and \$1.00, at all druggists. Trial bottle free.

## LONG SLEEP ENDS IN DEATH.

Thomas C. Webster, Idaho Man Who Was Stricken, Succumbs.

Kansas City, June 19.—Thomas C. Webster's sleep of 75 days at the general hospital ended in death today. For many days each night found him a little weaker, and physicians said he could not live unless he was aroused.

At 11 o'clock this morning he was given a light meal through a tube. It consisted of two eggs, milk, and a little whisky. An hour and a half later Webster died.

Webster was on the way to his brother's home in Georgia on April 2 and went to sleep in the Union depot. He was taken to the Helping Hand Institute and thence to the General hospital. His home was in Horseshoe Bend, Idaho.

He Fired the Stick. "I have fired the walking-stick I've carried over 40 years, on account of a sore that resisted every kind of treatment, until I tried Bucklen's Arnica Salve; that has healed the sore and made me a happy man," writes John Garrett, of North Mills, N. C. Guaranteed for Piles, Burns, etc., by all druggists, 25c.

## FLUSHER WASHES OUT SAND FILLER

Brick Streets Are Going to Bad Rapidly

Preparation Made By Board of Public Works To Build Sidewalks On Broadway.

REPORT FOR FIRST SIX MONTHS

"Brick streets with a sand filler are wearing away 50 per cent faster since the use of the street flusher began," said City Engineer Washington at the board of public works meeting yesterday afternoon. The reason for the greater wear as given by the city engineer is that the sand is washed from between the bricks, and vehicles passing over the street, chip off the bricks. Since the street flusher has been in use, Broadway below Fourth street, the only improved street with a sand filler, has become badly out of repair.

When the traction company is ready to double-track to the river, which may be accelerated by the agitation for the old schedules, made by lower Broadway merchants, the same terms of reconstruction may be made with the city, that were made in the double-tracking between Fourth and Fifth streets, and thus save the city the expense.

Street Inspector Elliott was ordered to get out a warrant against the Terrell livery stables on Third street between Kentucky avenue and Washington street for driving across the pavement, where there is no crossing, and for all other persons who may do likewise.

City Engineer Washington was instructed to prepare the specifications for reconstructing Fountain avenue and Broadway in accordance with ordinances passed, and to include surface-draining sewers as they may be needed. He was instructed to dispose of the dirt excavated as he saw proper. Mr. Washington will look at the stagnant water on Second street near Kentucky avenue to see what can be done to remedy the nuisance, and who should do it. The practicability of a ditch behind the cemetery to drain that vicinity, will be investigated by the city engineer.

To get Murray street improved, the property owners abutting must dedicate a right of way to the city. Murray street is near the Franklin school, building on South Sixth street, running from Sixth street to Seventh. Clay street between Seventeenth and Nineteenth streets will be inspected for acceptance next Tuesday afternoon at 1:30 o'clock by the board of public works. City Auditor Kirkland was requested to have a report of the first six months of the year in those departments under control of the board of public works ready for the board July 16, so that the board may act with perspective in the last half of the year.

Tramway Officer Jay Toner found a city mule too lame to work and notified the street inspector. The board ordered that only serviceable stock be used and the lame mule will be sold.

Precedence as usual will be given to the present occupants of the stalls in the market house, in the semi-licensing renewals, due July 1.

A Fortunate Texan. Mr. E. W. Goodloe, of 107 St. Louis St., Dallas, Tex., says: "In the past year I have become acquainted with Dr. King's New Life Pills, and no laxative I ever before tried so effectually disposes of malaria and biliousness." They don't grind nor gripe. 25c at all druggists.

## DESERVES COMMENDATION.

Father of Fifteen Strapping Boys to See President.

Holland, Mich., June 19.—Fifteen sons, all at work on his farm, is the reward of F. T. Mether, who resides six miles from here. He has thirty children all living, and believes he holds the championship.

Mether's first wife gave birth to six, and his present helpmate is the mother of 24. She is 45 and her husband is 63.

Mether went to Lansing during the visit of President Roosevelt to show some of his numerous progeny, but when he approached the executive the secret service man doubted his story and ordered him away. He was much disappointed.

## Banner for Big Families.

Charlotte, Tenn., June 19.—President Roosevelt can find no fault with Charlotte in the matter of "race suicide." The family of J. M. Parrotte numbers sixteen sons and two daughters. The family of Alexander Cunningham has fourteen members, the sexes being evenly divided. Pitts Powers has thirteen children. There is not a family in the whole country that has less than eight. Recently John Nabbe moved from Mount Vernon, Ind., to this place. He had only one child. The Nabbes were made to feel their unpopularity to such an extent that they remained in Charlotte only three weeks, moving to

Millan, Tenn., where the race suicide feeling is not extreme.

The Magic No. 3. Number three is a wonderful wascot for Geo. H. Harris, of Cedar Grove, Mo., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best remedy for stomach, liver and kidney troubles, by all druggists 50c.

## WASHINGTON

### GOSSIP OF DULL DAYS AT THE NATION'S CAPITAL.

#### Senator McCreary Believes in Southern Candidate—He Is Somewhat Cessantist.

Washington, June 19.—Senator McCreary, of Kentucky, insists that the Democratic party will nominate a southern man for vice-president in 1908. In an interview here he declared that it is a foregone conclusion that Mr. Bryan will be chosen to head the ticket next year. He is insistent, however, that Mr. Bryan's running mate should be chosen from south of the Mason and Dixon line and believes that the south will insist upon this recognition. Senator McCreary says that there is every reason to think this should be done, for the war has been over now for more than forty years and complete amity has been

restored, so that there is no reason why the south should longer be ignored by the party of which it is the mainstay. With regard to the political situation in his own state the senator is not so sanguine and might be expected of a Democratic victory.

#### Waterways.

Just before President Roosevelt left this week for Oyster Bay, Representative Burton, of Ohio, chairman of the new inland waterways commission, called at the white house to discuss the final plans for the trip of inspection the president and members of the commission are to make along the Mississippi river this coming autumn. On leaving the white house Chairman Burton declared the next meeting of the commission probably would be held toward the end of September, and that the members: all probably would join the president at Keokuk, Ia., and begin the inspection trip on October 2. The president is looking forward with pleasurable anticipation to this journey and his favorable attitude toward the entire question of waterways development is so well known that it is expected the speech he will make at the deep waterway convention at Memphis, which will signalize the end of the trip, will be a decided important one and add to the interest already created in this important economic question. This interest has been created and sustained by the national rivers and harbors congress, which the president on several occasions has strongly commended for its patriotic missionary work.

#### Government Clerks.

S. M. Ross, of Nashville, Tenn., resigned his official position in the district department this week and will take up the practice of law in his home state. Mr. Ross is a graduate of the George Washington University law school, having come here with the degree of Bachelor of Arts from the University of Nashville. Mr. Ross's case is a fair example of scores of others, for the government clerk of today is nothing if not ambitious. Their hours are not onerous the government departments close at 4:30 in the afternoon and a large number of them are to be found enrolled in the department of law at the medical department.

#### Tribute for Morgan.

No one regrets the passing of Senator Morgan, Alabama's grand old man, more than Senator Bulkeley, of Connecticut. The Connecticut statesman was one of Senator Morgan's closest friends and greatest admirers. Although they never traced the relationship they believed they sprang from a common ancestry. Senator Bulkeley's christian name corresponds with the surname of the late Alabamian, and his father when he was a young man just entering his

professional career, left his New England home and settled in Selma, Ala., the town in which both Messrs. Morgan and Pettus lived for many years. Eventually Senator Bulkeley's father returned to Connecticut and married a New England girl. Senator Bulkeley paid a high tribute to the dead statesman, whose loss will be sorely felt by the senate.

The City of Savannah arrived last night from St. Louis with 52 passengers aboard and left early this morning for the Tennessee river.

A dozen or more Paducahans will take the round trip to Cincinnati on the Georgia Lee tomorrow.

The office at the ways is being enlarged today as the business there is outgrown the old accommodations.

The Union, a gasoline boat, bought in a load of scrap iron from the Cumberland river today. Paducah dealers are receiving shipments of skiffs, gasoline boats and packets from all the rivers and it looks like the broken down farm machinery since the Civil War is being collected.

The Clyde will get away for the Tennessee river this evening with a good trip.

The Dunbar will arrive tonight from Nashville and leave Thursday morning for the same point.

The Joe Fowler had good business in the Evansville trade today. Sweet corn grown on Mr. Saunderson's place adorn all the packets in the Evansville and Cairo trade.

Minnows, according to fishermen, are unusually scarce this year. They usually are found near the banks this time in the year but schooling gives no success on the river front.

From the similarity of F. Gent, as ained on the back of the show boat, to F. Cents, the showboat goes by that name among the river men. Mr. Gent's showboat will leave tomorrow for the Cumberland river and river men are waiting with interest to see a gasoline boat with a showboat in tow, can stem the tide in the Cumberland river.

Practically a new hull is being built on the Fannie Wallace at the dry docks. It will be a week or longer before the little pusher will be back again.

The fastest gasoline boat ever seen in Paducah ran about in the local harbor yesterday. It has not been named and the manufacturer wants to sell it to somebody who will enter in the Cairo races. It showed a lean pair of heels to the George Fowler yesterday, and some think he Dick Fowler would have to hurry to beat it.

Henry F. Kath and his gasoline boat are here preparing to go pearling agailu. Mr. Kath brings thousands of pearls out of the river every year.

A fall of 0.3 was registered at the river this morning for the last 24 hours, the stage showing a mark of 8.2. Same date last year the stage was 9.5. Business at the wharf is picking up.

#### Official Forecasts.

The Ohio, at Evansville and Mt. Vernon, will continue rising during the next 36 hours, reaching a stage close to 32 feet at Evansville. At Paducah, not much change during the next 24 hours. At Cairo, will continue falling this afternoon and all for 24 to 36 hours.

The Tennessee, at Florence, will continue rising during the next 24 to 36 hours. At Riverton will continue rising tonight. At Johnsonville, will continue falling during the next 12 hours, then rise.

The Mississippi, from below St. Louis to Cairo, and the Wabash at Mt. Carmel, will continue falling during the next 24 to 36 hours.

Patrolman Aaron Hurley returned from Cairo this morning unsuccessful in capturing a man suspected of stealing watches and money from Rob Noble's farm in the county. Mr. Noble accompanied the patrolman part of the way.

### THEY SHOT TO KILL.

Difficulty at a Logging Camp Will Cause Four Deaths.

Booneville, Ky., June 19.—A difficulty occurred at Polkton, on Meadow creek, a logging camp five miles from Booneville, yesterday evening in which Wiley Bolla shot Clint Caudill four times and in turn was shot and instantly killed by Caudill and Henry Collins. Caudill cannot live.

Among the crowd that gathered around the two shot men, within a few minutes after the difficulty, trouble arose between Tom Wilson, a former marshal of both Jackson and Irvine, and Wm. Long, a boy. Wilson knocked the boy down, and his brother-in-law, John Estep, who was standing by, was also brought into the difficulty, when Estep shot and instantly killed Wilson. Estep surrendered to the officers at once, and Collins is still at large. Estep claims justification. He was duly sober at the time of the killing. Bolla and Caudill were drunk.

INVESTIGATION IS COMMENCED.

Into the Threatened Telegraphers' Strike By Labor Commissioner.

Washington, June 19.—Charles P. Neill, commissioner of labor, went to New York last night to make inquiries concerning the threatened telegraphers' strike. He is making the trip for the purpose of familiarizing himself with the situation before taking action. He will return to Washington, it is expected, some time tonight and therefore probably will not see President Roosevelt, by whom he was delegated to investigate the matter.
